

## 1951 Great Northern Railway Caboose

This authentic 1951 Great Northern Railway Caboose X-294, acquired from the estate of Henry Welzel, will be located here until late summer 2005, when it will be moved to its permanent home at the Iron Goat Interpretive Site at Milepost 58.3 on US Highway 2.

The caboose serves to remind us of the Great Northern Railway upon whose abandoned right-of-way the Iron Goat Trail is built.

The Iron Goat Interpretive Site is a partnership of Volunteers for Outdoor Washington, USDA Forest Service, Washington State Department of Transportation, Stevens Pass Greenway, King County, and the Town of Skykomish.
